Professional Summary

Infrastructure Engineer with hands-on experience supporting manufacturing and multi-site environments across Windows Server, virtualization, networking, security, storage, backup, and disaster recovery. Currently maintaining factory and office infrastructure at Electrolux Group. Completed Azure cloud and infrastructure training, covering Azure administration, network security, and backup technologies. Building hands-on cloud skills through Bicep IaC, hub-and-spoke architectures, and GitHub Actions CI/CD lab projects. Effective in complex troubleshooting, infrastructure hardening, technical documentation, and cross-functional coordination with global IT, R&D, and OT teams.

Technical Skills

Cloud & Automation: Microsoft Azure (VMs, VNETs, NSGs, Storage Accounts, Entra ID, RBAC, Private Link, Private DNS, Monitor, Backup, CLI), PowerShell, Azure CLI, Bicep (IaC), GitHub Actions, Git

Virtualization & Compute: VMware ESXi, VMware vCenter, Hyper-V, Proxmox VE, Windows Server 2016/2019/2022

Linux: Ubuntu Server, Red Hat Enterprise Linux (RHEL)

Identity & Directory: Active Directory Domain Services (AD DS), Group Policy (GPO), DNS, DHCP, DFS, Remote Desktop Services (RDS)

Networking & Security: TCP/IP, LAN/WAN, VLANs, Routing, VPN, NAT, Cisco Switching, Cisco ISE, FortiGate, Sophos Firewall, SSL Certificates, Security Hardening

Backup & Disaster Recovery: Veeam Backup & Replication, Disaster Recovery Planning, Recovery Testing

Storage: Azure Storage Accounts, Dell PowerScale, IBM SAN, RAID, NAS

Database & Monitoring: Microsoft SQL Server, Windows Event Viewer, Performance Monitoring

Microsoft 365: Microsoft 365 Administration

Remote Support: TeamViewer, AnyDesk, RustDesk, RDP

Languages: Arabic (native); English (professional working proficiency)

Professional Experience

IT Infrastructure Analyst

Mar 2026 – Present

Electrolux Group

- Operate and maintain on-site server, network, Wi-Fi, and workplace infrastructure supporting factory and office operations.
- Administer physical and virtual server environments and maintain local IT and server-room operability with Facilities and Global IT.
- Design and develop Layer 2/Layer 3 switching, fiber, LAN, and Wi-Fi infrastructure aligned with Global IT standards, while collaborating on WAN connectivity.
- Provision infrastructure for laboratories, warehouses, machinery, and production equipment in coordination with R&D, Logistics, Engineering, and IoT teams.
- Implement local infrastructure security standards and support OT asset management, VLAN segmentation, and patching of factory and shop-floor PCs.
- Manage IT asset lifecycles and disposal and contribute to the annual infrastructure budget.

IT Infrastructure and Systems Specialist

Jun 2025 – Jan 2026

Aegis

- Configured and managed Cisco switches and network devices and troubleshoot network incidents.
- Implemented and maintained firewalls, monitored network traffic, and supported compliance with security standards.
- Administered Active Directory Domain Services, user authentication, Group Policy, domain trusts, and security configurations.
- Managed VMware ESXi and Proxmox virtualization platforms and performed server maintenance and hardware upgrades.
- Administered Dell iDRAC and Dell PowerScale storage systems and maintained RAID configurations for performance and redundancy.

- Managed Microsoft SQL Server and Oracle databases, including backups, recovery testing, and performance troubleshooting.
- Developed and tested backup strategies and systems and executed disaster recovery plans to minimize downtime.

Jul 2022 – Apr 2024

IT Specialist

El Mostafa for Master Batch

- Supported and administered Active Directory, DNS, DHCP, file services, user accounts, and access permissions.
- Assisted with LAN administration, connectivity troubleshooting, switching, routing, and network access issues.
- Installed, configured, and maintained workstations, business software, printers, and network-connected devices.
- Managed IT incidents involving hardware, software, network connectivity, and user authentication.
- Coordinated vendor support, asset tracking, equipment repairs, and infrastructure documentation.

Education

Bachelor of Science (BSc) in Management Information Systems (MIS) Aug 2019 – Sep 2023

El Shorouk Academy, Al Shorouk City, Cairo

Cloud Projects

Secure Azure Hub-and-Spoke Architecture

Jul 2026

- Designed a secure hub-and-spoke architecture using modular Bicep, including hub, application, and data VNets, peering, routing, NSGs, and ASGs.
- Implemented Private Endpoints, Private DNS, Network Watcher, and VNet flow logs for private connectivity and monitoring.
- Added CI validation, guarded deployment, testing, and teardown scripts, with complete architecture documentation.

Technologies: Azure, Bicep, GitHub Actions, VNets, NSGs, Private Link, Private DNS

GitHub: github.com/yossefseit/azure-secure-hub-spoke

Azure Static Web App Portfolio

Jul 2026

- Deployed a personal cloud portfolio using Azure Static Web Apps with source control in GitHub.
- Configured GitHub Actions for automated deployment and resolved workflow configuration failures.

Technologies: Azure Static Web Apps, GitHub Actions, Git, HTML, CSS

GitHub: github.com/yossefseit/yossefseit.github.io

Professional Training

Azure Cloud Engineering Program

Dec 2024 – Jun 2025

IT-Gate Academy | 220 Credit Hours | Grade: Very Good

- Microsoft Azure: AZ-900, AZ-104, AZ-500, AZ-700
- Veeam VMCE (Backup & Replication)
- Refresher: CCNA 200-301, Windows Server Administration (MCSA curriculum)

IT Infrastructure Program

Jan 2024 – Apr 2024

IT-Gate Academy | 240 Credit Hours | Grade: Very Good

- Cisco CCNA 200-301 (Networking Fundamentals)
- Windows Server Administration (MCSA Windows Server 2019 curriculum)
- Fortinet NSE4 (Network Security)
- Sophos Firewall Administration (XGS Firewall track)
