

Yossef Mohammed Ali

IT Infrastructure Engineer | Cloud Infrastructure | Azure Cloud Administrator

Cairo, Egypt | (+20) 155 304 1880 | yossefali67@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Infrastructure Engineer with hands-on experience supporting enterprise and factory environments across Windows Server, virtualization, networking, security, storage, backup, and disaster recovery. Azure administration skills span Virtual Machines, Virtual Networks, Microsoft Entra ID, RBAC, NSGs, Azure Backup, Azure Monitor, Azure CLI, ARM templates, and Bicep fundamentals, supported by academy training aligned with AZ-900, AZ-104, AZ-500, and AZ-700. Effective in complex troubleshooting, infrastructure hardening, technical documentation, and coordination with vendors and global IT teams.

TECHNICAL SKILLS

Microsoft Azure: Virtual Machines, Virtual Networks, Storage Accounts, Microsoft Entra ID, RBAC, Network Security Groups, Private Link, Private DNS, Azure Backup, Azure Monitor, Azure CLI

Windows Server and Identity: Windows Server 2016/2019/2022, Active Directory Domain Services, Group Policy, DNS, DHCP, DFS, File Services, Remote Desktop Services

Linux: Ubuntu Server, Red Hat Enterprise Linux

Networking and Security: TCP/IP, LAN/WAN, VLANs, routing, VPN, NAT, Cisco switching, Cisco ISE, FortiGate, Sophos Firewall, SSL certificates, hardening, troubleshooting

Virtualization: VMware ESXi, VMware vCenter, Hyper-V, Proxmox VE, Proxmox Backup Server

Backup and Recovery: Veeam Backup & Replication, backup and restore, disaster recovery planning, recovery testing

Automation and IaC: PowerShell, Bash, Azure CLI, Git, GitHub Actions, ARM templates, Bicep fundamentals

Storage and Data: Azure Storage Accounts, IBM SAN, Dell PowerScale, RAID, NAS, Microsoft SQL Server administration and backup

Languages: Arabic (native); English (professional working proficiency)

PROFESSIONAL EXPERIENCE

IT Infrastructure Analyst

Mar 2026–Present

Electrolux Group

- Operate and maintain onsite server, network, Wi-Fi, workplace, and server-room infrastructure supporting factory and office operations.
- Administer physical and virtual server environments and maintain local infrastructure operability with Facilities and Global IT.
- Design and develop Layer 2/Layer 3 switching, fiber, LAN, and Wi-Fi infrastructure aligned with Global IT standards while collaborating on WAN connectivity.
- Provision infrastructure for laboratories, warehouses, machinery, and production equipment with R&D, Logistics, Engineering, and IoT teams.
- Implement local infrastructure security standards and support OT asset management, VLAN segmentation, and patching of factory and shop-floor PCs.
- Deliver infrastructure projects and digital-transformation initiatives across production and office environments.
- Coordinate vendors, contracts, workplace services, procurement, cabling, asset lifecycles, and infrastructure budget input.

PROFESSIONAL EXPERIENCE (CONTINUED)

IT Infrastructure and Systems Specialist

Jun 2025–Jan 2026

Aegis

- Configured and managed Cisco switches and network devices; implemented and maintained firewalls; monitored traffic and resolved network incidents.
- Administered Active Directory Domain Services, authentication, Group Policy, domain trusts, and security configurations.
- Managed VMware ESXi and Proxmox virtualization platforms and performed server maintenance and hardware upgrades.
- Administered Dell iDRAC and Dell PowerScale storage and maintained RAID configurations for performance and redundancy.
- Managed Microsoft SQL Server and Oracle databases, including backups, recovery testing, and performance troubleshooting.
- Developed and tested backup strategies and executed disaster recovery plans.
- Resolved escalated hardware and software issues with Technical Support and trained IT staff on system-management tools.
- Documented operational procedures and maintained an up-to-date IT knowledge base.

CLOUD AND INFRASTRUCTURE PROJECTS

Secure Azure Hub-and-Spoke Architecture

Authored and CI validated | Azure deployment and runtime evidence pending | Jul 2026

- Authored modular Bicep for hub, application, and data VNets, peering, routing, NSGs, ASGs, Private Endpoint, Private DNS, Log Analytics, and diagnostic settings.
- Added guarded Bash and PowerShell deployment, validation, and teardown workflows with architecture, testing, security, cost, and troubleshooting documentation.

github.com/yossefseit/azure-secure-hub-spoke

Azure Static Web App Portfolio

Deployed on Azure Static Web Apps | Jul 2026

- Built and deployed a dependency-light portfolio with semantic HTML/CSS, security headers, responsive navigation, custom error handling, and documented architecture.
- Configured GitHub Actions validation and delivery; authored a Bicep resource definition that compiles locally but has not been applied to the existing Azure resource.

gentle-smoke-06d712d0f.7.azurestaticapps.net

Samba Active Directory Domain Controller Lab

Scripted lab implementation

Documented Bash-based Samba AD DC provisioning on Ubuntu 24.04 with DNS, Kerberos, directory objects, service checks, and troubleshooting guidance.

EDUCATION

Bachelor of Science (BSc) in Management Information Systems

Aug 2019–Sep 2023

El Shorouk Academy, Al Shorouk City, Cairo

TRAINING AND COURSE EVIDENCE

Academic Azure Cloud Engineering Program — IT Gate Academy

Certificate of participation | Dec 2024–Jun 2025 | 220 credit hours | Grade: Very Good

Coursework covered objectives associated with AZ-900, AZ-104, AZ-500, AZ-700, CCNA 200-301, Windows Server/MCSA, and Veeam VMCE. This is academy program-completion evidence, not proof of vendor certification exams.

Academic IT Infrastructure Program — IT Gate Academy

Certificate of participation | Jan 2024–Apr 2024 | 240 credit hours | Grade: Very Good

Coursework covered CCNA 200-301, Windows Server/MCSA, and Fortinet NSE 4 objectives.

Cisco Networking Academy Course Badges

Introduction to Networks; Switching, Routing, and Wireless Essentials; Enterprise Networking, Security, and Automation. Public badge links are available on the portfolio.
