Professional Summary

Infrastructure engineer supporting enterprise and manufacturing systems across Windows, Linux, networking, virtualization, identity, backup, and recovery. Builds Azure automation with Bicep and GitHub Actions, including an application delivery pipeline using OpenID Connect (OIDC). Brings production troubleshooting and IT/OT experience to cloud and DevOps roles, with additional AWS, Terraform, and Kubernetes learning through an ongoing DevOps diploma and labs.

Technical Skills

Cloud Platforms: Microsoft Azure (VMs, VNets, NSGs, Storage, Entra ID, RBAC, Private Link, Private DNS, Monitor, Backup, Azure CLI); AWS (IAM, VPC, EC2, EKS, ECR, ALB, S3, CloudWatch)

Infrastructure as Code & Configuration: Terraform, Bicep, Ansible

CI/CD & Source Control: Git, GitHub, GitHub Actions, GitLab CI/CD

Containers & GitOps: Docker, Docker Compose, Kubernetes, Helm, Argo CD

Observability & DevSecOps: Prometheus, Grafana, ELK Stack, SonarQube, Trivy

Systems & Scripting: RHEL, Ubuntu, Windows Server 2016/2019/2022, Bash, PowerShell, Python (basic)

Virtualization & Identity: VMware ESXi/vCenter, Hyper-V, Proxmox VE, AD DS, Group Policy, DNS, DHCP, DFS, RDS

Networking & Security: TCP/IP, LAN/WAN, VLANs, Layer 2/Layer 3 switching, routing, VPN, NAT, Cisco switching and wireless, FortiGate, Sophos Firewall, SSL/TLS, security hardening

Backup, Storage & Data: Veeam Backup & Replication, disaster recovery testing, Dell PowerScale, IBM SAN, RAID, NAS, Microsoft SQL Server, Oracle

Languages: Arabic (native); English (professional working proficiency)

Cloud & DevOps Projects

Azure Application Delivery – Egypt Salary Calculator Aug 2026

- Built and deployed a React/TypeScript application to Azure App Service for Linux, with 55 calculation and interface tests using Vitest and Testing Library.
- Configured GitHub Actions for tests, linting, and production builds; deployed build artifacts using GitHub OIDC and an Azure managed identity.
- Diagnosed CI/CD configuration failures and verified a successful Azure deployment; documented runtime configuration, deployment architecture, and local quality checks.

Technologies: Azure App Service, GitHub Actions, OIDC, React, TypeScript, Vitest

GitHub: github.com/yossefseit/egypt-salary-calculator

The Bicep labs below are authored and CI validated; live Azure deployment remains pending.

Secure Azure Hub-and-Spoke Lab Jul 2026

- Authored modular Bicep for hub, application, and data VNets, peering, routing, NSGs, ASGs, private endpoints, and private DNS.
- Automated Bicep compilation and script checks in GitHub Actions; prepared deployment scripts, connectivity tests, and ownership-checked teardown.

Technologies: Azure networking, Bicep, Private Link, Private DNS, GitHub Actions, Bash, PowerShell

GitHub: github.com/yossefseit/azure-secure-hub-spoke

Azure Governance Automation Lab Aug 2026

- Authored subscription-scoped Bicep for Azure Policy, RBAC, budgets, resource locks, and audit-first governance controls.
- Added CI compilation and offline failure tests; wrote Bash and PowerShell lifecycle scripts with subscription checks, what-if review, and ownership-checked cleanup.

Technologies: Azure Policy, RBAC, Bicep, GitHub Actions, Bash, PowerShell

GitHub: github.com/yossefseit/azure-governance-automation

Professional Experience

IT Infrastructure Analyst
Electrolux Group

- Operate and troubleshoot server, network, Wi-Fi, and workplace infrastructure supporting factory and office operations in an IT/OT environment.
- Administer physical and virtual server environments and coordinate server-room operability with Facilities and Global IT.
- Diagnose cross-layer connectivity incidents across switching, VLANs, DHCP, firewalls, and wireless infrastructure; document recovery actions and configuration changes.
- Design and deliver Layer 2/Layer 3, fiber, LAN, and Wi-Fi connectivity for laboratories, warehouses, machinery, and production equipment with R&D, Logistics, Engineering, IoT teams, and external partners.
- Apply infrastructure security standards and support OT asset management, network segmentation, shop-floor patching, asset lifecycles, and infrastructure planning.

Mar 2026 – Present

IT Infrastructure and Systems Specialist
Aegis

- Configured and managed Cisco switching and firewall infrastructure, monitored traffic, and troubleshot network and security incidents.
- Administered Active Directory Domain Services, Group Policy, DNS, DHCP, user authentication, access controls, domain trusts, and security configurations.
- Managed VMware ESXi and Proxmox environments, Dell iDRAC, Dell PowerScale storage, RAID, server maintenance, and hardware upgrades.
- Administered Microsoft SQL Server and Oracle databases and developed backup, recovery-testing, and disaster-recovery procedures.

Jun 2025 – Jan 2026

IT Specialist
El Mostafa for Master Batch

- Administered Active Directory, DNS, DHCP, file services, user accounts, permissions, and Windows endpoints.
- Supported LAN infrastructure, switching, routing, network connectivity, business applications, and user authentication.
- Resolved hardware and software incidents and coordinated vendors, asset tracking, repairs, and infrastructure documentation.

Jul 2022 – Jul 2024

Professional Training

DevOps Engineering Diploma – In Progress
Route Academy / Six-month hands-on program

- Curriculum covers Linux/RHEL, Git, AWS, Terraform, Ansible, Docker, CI/CD, Kubernetes, monitoring, DevSecOps, and GitOps; developing practical skills through coursework and labs.

Aug 2026 – Expected Feb 2027

Azure Cloud Engineering Program
IT-Gate Academy / 220 Training Hours / Grade: Very Good

- Coursework aligned with Microsoft AZ-900, AZ-104, AZ-500, and AZ-700, plus Veeam VMCE, CCNA, and Windows Server administration.

Dec 2024 – Jun 2025

IT Infrastructure Program
IT-Gate Academy / 240 Training Hours / Grade: Very Good

- Coursework aligned with Cisco CCNA 200-301, Windows Server administration, Fortinet NSE4, and Sophos Firewall administration.

Jan 2024 – Apr 2024

Education

Bachelor of Science (BSc) in Management Information Systems (MIS)
El Shorouk Academy, Al Shorouk City, Cairo

Aug 2019 – Sep 2023
